You have been assigned an electronic lock access code that will allow you entry to the EE Department laboratories listed. By signing this form, you are agreeing to keep the issued code secure and to not divulge the code to any other person. When you use the code to unlock a door, your code is registered along with the date and time of your access. These labs are under 24 hour video surveillance. By signing this form you are also agreeing to keep the lab secure during your usage of the facility and to ensure that the lab is securely (locked) when you leave. You are not to allow anyone access to the lab who does not have an authorized access code. Abuse of this privilege will result in loss of use of the lab. You must also abide by all rules of the Lab.
